

25 Percent of Street Markers Up; Completion Hoped To Be This Week

Finishing touches are being applied to many of the steel posts at the corners of streets in the city. Roy Griffith, member of the city council, is temporarily taking charge of the setting up of street markers while Robert Weems, who is chairman of the committee, is recuperating from an illness.

Griffith said Thursday, July 29 that only about twenty-five percent of the signs have been put up, and that he hoped all would be completed at the latter part of this week. The signs are being assembled at the City Hall and crews are putting them up. All work is being carried out according to the map that was drawn up with the city, chamber of commerce and post office, assisting.

Many of the signs may seem confusing now, but Griffith stated that it is possible to get the street markers mixed up. First street is the dividing line and all streets running east and west from First Street north will begin at one continuing to the necessary number. Streets which heretofore have carried even numbers will be given names.

Griffith said, "After all signs have been put up, they will be thoroughly checked and corrections will be made."

He emphasized the fact that

citizens shouldn't get alarmed about their mail delivery or street name because the new street naming system will not go into effect until after each house has been numbered. The City will give due notice when the people may begin using the new names and numbers.

Many complements have been coming forth from the citizens on how nice the markers look. Not only do they add to the beauty of a well run city but it will also be more convenient for mail delivery, citizens, new comers and visitors, alike.

More volunteers are needed to keep the library open on other evenings of the week, Rev. McKeown said. Volunteers are to contact Rev. McKeown.

A compromise rate increase was granted the Southwestern Bell Telephone Company at a meeting of the City Council Tuesday night. All of the city dads were present along with representatives for the telephone company Emory B. Camp and Don Humble.

Four of the aldermen favored the compromise. They include John C. Andres, Gene Blake, Milton Schiller and Roy Griffith. Robert Weems did not vote on the issue.

The rate increase granted is as follows: business phones, now \$7.50 to \$8.50; one-party residence now \$3.75 to \$4.75; two-party now \$3.25 to \$3.75; four-party now \$2.75 to \$3.25.

An ordinance regulating the rates of the Southwestern Bell Telephone Company was presented to the council on June 1, 1954. The ordinance asked for a modern dial system and to extend and enlarge its outside plant.

At this time the company asked for a general raise which is being given by most cities. This ordinance was turned down at the second reading, the city secretary reported. The new ordinance included the rate hike but the clauses relative to the dial system were omitted, the secretary said.

The rate increase will go into effect with the October billing.

Alcoa, Union Officials Reach Agreement Friday Afternoon

Union and Alcoa officials Friday night reached an agreement and averted a strike some 30 hours before steel workers in 13 Aluminum Company of America plants across the nation were scheduled to walk out.

According to Alcoa officials who announced the settlement, no details of the agreement were made available from Pittsburgh, Pa., home office of the company.

Negotiations at Pittsburgh moved to Washington, D.C., today after all efforts to reach an agreement between the union and company officials had failed. Government mediators met with union and Alcoa officials in an effort to avert a strike threatened for midnight Saturday that would halt about half the nation's aluminum production.

The union was asking for longer vacations, increased insurance and pension benefits, plus an eight-cent hourly wage boost. The company had offered a five-cent hourly pay increase and no settlement on the insurance, vacation and pension plans.

Jake Walker, International CIO representative said that workers at the plant began "tapping the pots" at Alcoa this morning as part of the "orderly shutdown

of the Rockdale works." The union and company signed an agreement Friday afternoon stating that Alcoa would not operate the plant after midnight Saturday. Workers agreed to shut down the plant in an orderly manner.

A strike by the steel workers would have affected some 850 or 900 local workers in the plant. Office workers and plant guards would probably have continued to work. Industrial Generating company, which furnishes power for the huge Alcoa plant, would not have been harmed by the strike. An estimated 225 workers are members of the AF of L International Brotherhood of Electrical Workers. A prolonged strike, however, probably would have thrown them out of work.

Guests in the home of Mrs. W. N. Fanning over the weekend were Lt. Col. and Mrs. L. W. Raley and children of Midwest City, Oklahoma, Mr. and Mrs. W. L. Dunbar and children of Dallas and Mr. and Mrs. C. H. Elkins and children of Bellaire.

Henry Anthis of Milano was among the business visitors in the city Saturday.

Homer Nabours Is Reported Improving At Temple Hospital

County Clerk Homer Nabours is improving in the King Daughters Hospital in Temple. He has been a patient there for the past two weeks. It was reported that he is making considerable progress from a recent heart attack and his many friends here and over the county will be glad to know of his improvement.

Nabours was unopposed for the office of County Clerk in the July Primary and was unable to be here and assist with the election formalities. Mr. and Mrs. Jack Tumlinson assisted Leo O'Neil at Mr. Nabours office. Mrs. Tumlinson is the daughter of Mr. Nabours. Ballot boxes have to be returned to the office of Mr. Nabours within a certain time limit prescribed by law and the county clerk always keeps his office open on election night to accommodate the many election managers over the county.

Friends of the county clerk will be glad to learn of his improvement.

Who Stands For What In Texas And How Much Does It Cost?

After studying the vote in the Democratic Primary, this newspaper feels that it has let the general public down by not keeping them properly informed of all the facts about both the candidates.

We feel that it is our obligation to tell our readers all of the facts in our news columns and to elaborate on them in the form of editorials whenever the occasion calls for it.

We feel that had the general public been fully and honestly informed, the results would have been far different.

For this issue, we are going to discuss only one phase of the campaign . . . "Campaign Promises". We, of course, believe that an honest man will promise nothing more than he is sure he can deliver.

We have listened to Judge Yarborough on the radio, read about him in the press and watched him on television. During the small amount of time when he is not slinging the most vicious kind of mud and slander he is making campaign promises. Just

to mention a few, he has told the veterans of both wars that he will give them a \$1,000 bonus, he has promised to build some 50 dams along the lower reaches of Texas rivers, he has promised to raise old age pensions, (he has refused to say how much) and he has promised to raise teachers' pay (again, he has not said how much).

Now let's look at these promises and see what Mr. Yarborough can and can't do and how much it would cost.

Mr. Yarborough would have absolutely no power to give the vets a bonus if he were the Governor of Texas or the President of the United States. This power rests solely in the people of the State of Texas and any such bonus must be voted by them. So, actually, the governor has little or nothing to say about it.

The same holds true about old age pensions. It would require a constitutional amendment to raise them. Word has been passed around that Mr. Yarborough will raise these pensions the mo-

ment he steps into office if he is elected. Of course, he can't do it.

Now, let's look at the biggest item of all, the cost. If we swallow the barrage of propaganda and believe that Yarborough could carry out his campaign promises, how much would it cost?

It is estimated that there are about one million veterans in Texas. At a thousand dollars each, the cost of a bonus would be one billion dollars. It has been estimated that Yarborough's program of damming Texas Rivers would cost \$1,400,000,000.00. That's one billion, four hundred million dollars. These are just two of his promises. By the time they are all added together, the sum comes to nearly four million dollars per year in increased taxes to pay for them. That would exactly double our present state budget, and at the same time double our state taxes.

It all boils down to this . . . if Judge Yarborough can do what he says he can, it will double our tax burden!

Building Permits Climb In July; \$34,100 Reported

Cameron building for July topped the June report by some \$5,000. This month's total was reported by Mrs. Naomi Needham, city secretary and amounted to \$34,100.00.

In July 1953 the permits totaled \$125,928.00 and included only four permits. There were nine permits issued this month which are as follows: I. O. O. F. Lodge \$2,000 repair; Gillis Graham four houses for a total of \$26,000; Leo Porubsky new garage \$400; Kirk Grain addition \$1,500; Ruth Woods moving \$200 and Woodson Lumber Company a house for \$4,000.

Local Draft Board Seeking Whereabouts Of Registrant

The Milam County Draft Board is attempting to locate the whereabouts of Leon Taylor.

Anyone knowing the whereabouts of Leon Taylor, or anyone knowing the name of someone who might know the whereabouts of Leon Taylor, is requested to report this information to the local board office in the Citizens National Bank Building in Cameron, Texas.

The local board has information of vital importance to Leon Taylor and the cooperation of persons knowing his whereabouts will be appreciated by both the registrant and the local board.

The rain failed to cool off the atmosphere inside the county convention hall here Saturday when the pro-Shivers and pro-Yarborough factions met at the district courtroom at 3 p. m. to select delegates to the state convention that will be held at Mineral Wells on September 14.

The fiery session lasted for almost an hour and half as both groups were eager to get control of the convention. The Shivers crowd outnumbered the loyal democrats better than 3-2 and after necessary procedures E. A. Perrin was named permanent chairman.

E. A. Camp of Rockdale who is chairman of Precinct 15 opened the meeting and was nominated shortly thereafter as permanent chairman for the convention. Jack Prescott who conducted Shivers campaign in this county nominated Perrin as permanent chairman.

The question arose whether or not both republican and democrat votes would be counted in naming delegates to the state convention or just use the democratic votes cast for Shivers in the 1952 general election.

After some discussion by members of both sides, it was voted to use the total vote cast for Shivers in the 1952 election. The Milam County Democratic Executive Committee in its June meeting favored counting only the democratic votes as did many of the other county committees over the state; however, the state democratic committee that is controlled by Shivers voted in its June meeting to use votes from both parties. The Supreme Court of Texas failed to rule either way on the issue and left it up to the conventions in that it was party matter and should not have been brought before the courts.

The Milam County Committee

expressed its disapproval of Alan Shivers selling out to the Republican Party two years ago and advised the Democrats of this county and state to take part in the precinct conventions and return the state machinery back into the hands of the Democrats. This was partially done in the July Primary when this county favored Ralph Yarborough for Governor over Shivers by some 500 votes. Many of the rural precincts held conventions but reports of the conventions were not returned to the chairman.

The Yarborough delegates didn't turn out for the convention, had they done so, the convention might have been reversed. "They just didn't show up", E. A. Camp

said, either from the rain or lack of interest. Shivers led in only ten boxes in the county. The Yarborough group would have been in the majority had they taken interest in and come out and participated in such an important event. The pro-Shivers group was organized and are due commendable consideration is seeing that their delegates were on hand to cast their vote. The Rockdale delegation, headed Mayor W. P. Hogan, was 25 men strong and was a great impetus in the pro-Shivers faction. Judge Charles C. Smith, Jr. with the help of a number of other local pro-Shivers supporters turned out in good number at the convention. (See "Convention", Back Page)

17 County Men Register At Draft Board; Includes 7 Local Boys

Seventeen Milam County young men have registered with the Local Draft Board Number 92 during the month of July, having become eighteen years of age and thus required by law to register with the Selective Service System.

All registrants are mailed registration cards after the tenth of the month following the month of registration. For instance, registrants who registered during July will not be mailed their registration certificates until after August 10. Registration numbers will be assigned each registrant after that date and the number will appear on the back of each registration certificate.

Milam young men reported to the Board included Albert Melton, Billy Gene Streicher, Benjamin Foster Hubert, John David Brashear, Robert Drayton McCashe, Jr., Delao Moselina and

Charles Eddie Harmon, all of Cameron; Louis Vernon Davis of Cox's Providence; Walter Michalka of Elm Ridge; Hubert Lee Haynes, Richard Strelsky and Kenneth Luckey Harris, all of Rockdale; Harvey Gene Klotz of Thorndale; George Gaddess Weido of Rogers; Robert Irwin Rice of Ben Arnold; Ocellers Hyde, Jr., of Baileyville and Hubert Williams of Minerva.

Registrants corresponding with the local board should give their registration number, as shown on the back of registration certificate, as reference on their correspondence.

This procedure will assist the local board in locating a file without delay and in many cases avoid unnecessary correspondence in the event the registrant is registered with another local board.

THE LITTLE RIVER PHILOSOPHER READY FOR HIBERNATION PILLS SO HE CAN STORE COWS TILL IT RAINS

Editor's note: The Little River Philosopher on his Johnson grass farm at Marlow may have an idea this week, but it's ahead of his time.

Dear editor:

I was out here yesterday afternoon trainin my calves to stay on the shady side of their mothers while they go from the shade to the watering tank, heard the other day a rancher in West Texas lost a bunch of calves from sun stroke just from walkin on the sunny side of the cows, and I got to thinkin about an article I read some time back.

Accordin to this article, a scientist out in California is workin on a method of putting people into hibernation when they get sick. He's tryin to develop a pill you can swallow that'll cause you to pass into a month-long sleep or daze, while you recover from whatever is ailing you.

And I've been thinkin. Grass is so short, cattle are so hungry, and the price is so low, about the only thing that'll save em is some of them pills.

If I could give each of my cows

one of those pills and she'd hibernate in the barn until the drouth is over and the grass is knee high once more, it'd beat government relief all to pieces. In fact, I wouldn't see

any point in usin this method just while a drouth is on, why not arrange to let your cows hibernate every winter? Along about the first frost, hand each one of em a pill and herd em in the barn, shut the gate, and forget about em until next spring when the grass is out once more. might even try one myself, although up to now there hasn't been much essential difference between my farmin activities and hibernation anyway. Use of these pills would also solve the government's problem of price supports fro cattle, which up to now it's been unable to do on account of they claim you can't store a cow.

The trouble with scientists though is they're always talking about these things but they're a

RADIO and TELEVISION SERVICE. ALL MAKES. PARMA RADIO SERVICE.

little slow about getting around to getting the pills in my hands. You take a man with a bunch of cows, no grass, and the bottom out of prices, even if the government lends him some money to buy feed with, there's a joker in it, he's got to pay it back. That ain't relief, that's just postponing the misery.

Agricultural experts will tell you how to conserve feed, how to take care of your grass, etc., but when a cow gets hungry, it doesn't take any expert to tell you the only answer to her problem is feet.

If they can get these hiber-

nation pills perfected 20 days from now, my cows can make it, but otherwise I won't be responsible.

Yours faithfully,
J. A.

Miss Karnowski, George Wessels
Marry In Church Ceremony Saturday

In a simple double ring ceremony at four o'clock Saturday afternoon, July 31 at Our Lady of Grace Catholic Church in San Antonio, Miss Madeline Karnowski became the bride of S-Sgt. George Wessels.

Rev. John Ward, assistant pastor, read the ceremony before an altar decorated with gladiolas.

Preceding the ceremony, Mrs. Betty Jean Klein of San Antonio, organist, played the "Ave Maria" and the "Lord's Prayer." She also played the traditional wedding march.

Given in marriage by her father, the bride wore a strapless gown made of white lace and nylon tulle over taffeta. The waltz length gown featured a lace bodice and a lace inset which extended to petal points at the mid-skirt. She wore a white lace bolero designed with a Queen Elizabeth collar and long sleeves which tapered to a point at the wrist. Her finger-tip veil of illusion was caught by a tiara of pearls and rhinestones. She wore a set of pearl ear rings which belonged to her mother. Her bridal bouquet was of Phalaenopsis orchids caught by tulle and satin ribbons on top of a white prayer book. The bride carried out the traditional something old, new, etc.

Mrs. Clarence Hanel, sister of the bride, of Cameron, was matron of honor. She wore a ballerina length dress of light green. The dress was designed with a lace yoke featuring a full gathered skirt of organdy over taffeta. She wore a crescent shape headpiece of the same color and carried a spray of white asters.

Bestman was Clarence Hanel of Cameron. Ushers were Leo Zvonek and Otto Korenek, both of San Antonio.

The bride's mother wore a navy blue crepe dress with white accessories. Her corsage was of white carnations.

Immediately following the ceremony a reception was held at the home of the bride's sister, Mr. and Mrs. William Gros at 423 Roslyn Avenue. Hostess were the bride's sisters, Mrs. Gros, Mrs. Leo Zvonek of San Antonio and Miss Ann Karnowski of Cameron.

Following their arrival, the guests were invited into the back yard where they registered in the bride's book, which Miss Theresa Gros of San Antonio, niece of the bride, was in charge of.

The bride's table was covered with a white linen cloth and centered with an arrangement of white mums and greenery. Two white tapered candles were placed on both sides of the flowers. The three tiered wedding cake, iced white and decorated with tiny pale pink flowers with green leaves, and topped with a miniature bride and groom, was on one end of the table. The other end was balanced with a crystal punch bowl.

After a barbeque buffet supper served on the lawn, the wedding cake was cut by Miss Florence Shloss of San Antonio and Miss Mary Moczygemba of Falls City. Serving punch were Miss Ruby Lee Strey and Miss Joyce Kroeger, both of San Antonio. Others assisting in the house party were Miss Helen Spaeth, Mrs. Otto Korenek and Mrs. Charles Hellmann, all of San Antonio.

Farmers Can
Expect Further
Price Cuts

WASHINGTON, The House Agriculture committee staff warned farmers Monday to expect further price cuts, particularly on livestock. But it said consumers probably will get "little benefit" from them.

In a seven-page report, released by Chairman Clifford R. Hope (R-Kan.), the staff said housewives have gotten little or no break from the sharp decline in farm prices during recent years.

It said farm prices dropped 18.8 per cent since 1951 but retail food

costs have gone up about one per cent in the same period.

The farmer now is getting only 44 cents of the consumers' food dollar, the report found. It is the lowest farmer share since 1941 and compares to a record 54 cents the farmer received in 1945.

The other 56 cents, the staff study said, goes for processing, marketing and transportation charges.

"So far, almost none of the lower prices received by farmers since 1951 has been passed on to consumers in the form of lower retail food prices," the report said.

"Further declines in farm prices are expected as more livestock and livestock products come to market and price support levels lowered.

"Consumers can expect little benefit, however, from these lower farm prices unless recent tendencies to increase marketing and processing charges are curbed."

The report did not suggest any way of curbing food marketing costs.

The report indirectly criticized the administration plan to abandon rigid high price supports for basic crops next year. The committee voted to keep present rigid high price supports but the House passed a modified form of the administration's "flexible" program. It is pending in the Senate.

SCS Advocates Large Adequate Dams To Conserve Water

The last few years of dry weather has shown many farmers in the Central Texas Soil Conservation District that small ponds will not provide a year-round water supply for livestock. During the years of normal rainfall, the frequent rains kept water in the ponds most of the time. As the frequency of rain decreased, the small ponds began to dry up. As much as six feet of water will evaporate over the pond surface in a years time. Most of the pond being built by district co-operators are 2,000 cubic yards or larger, and more than 8 feet deep over 40 percent of the surface area.

The drought has been caused some of the farmers to be more aware of soil condition. In some of the fields, the cotton is wilted and yellow because of the dry hot weather. In other fields, the cotton is still green. Condition of the soil is usually the major difference in the fields. When the soil is in good condition, the structure lets water penetrate and then holds the water for future plant use. If the field has been row-cropped for many years without legumes and other soil building crops, the soil is usually in such a condition that water can not readily penetrate the surface.

Soil condition or structure may

be improved by proper farming methods. Deep rooted legumes or grasses do very good jobs of soil conditioning when left on the ground for a full growing season. Old crop residue helps catch water and store it for future use. Contour cultivation slows the rate of water run-off, allowing more water to penetrate the surface. There are many conservation practices that the farmer may use to help offset the damaging effect of drought.

So with the new Buick you buy now, you'll stay right up in the style parade for years to come—and command a higher resale price when you trade it in.

3. You get a bigger allowance from our volume business

YARBOROUGH:

Thanks, Friends; Predicts Victory

AUSTIN, Aug. —Democratic gubernatorial candidate Ralph Yarborough said this week he will win the Aug. 28 second primary by a sweeping margin.

Said Yarborough, confidently: "678,000 Texans—a majority of Texans—can't be wrong."

"678,000 Texans have hammered home their belief that integrity in their government can be achieved only by a change."

"678,000 Texans have noted their distrust and disapproval of a third term for their governors. "678,000 Texas Democrats have made it crystal-clear they want a leader whose loyalty is unquestioned, who will never betray them."

Yarborough thanked "each and every one of the brave Texans who voted for and with me" in the first primary. He said he was "especially and particularly grateful to the citizens of Milam County who have joined our common fight to restore decency and honor to Texas government."

Yarborough said the campaign issues now are sharply drawn. He said: "Texans can now choose for or against a tradition-breaking third term, for or against straight-forward Democratic leadership in their State Capital."

The Democratic candidate repeated his thanks to "his friends of Milam County and urged their voting support—along with the votes of all other Texans—Aug. 28."

News About Your Social Security

"The importance of properly using one's social security card can hardly be over-stressed," James B. Marley, Manager of the Austin Social Security Administration office, declared today.

"The commission of even a single wage report could conceivably lead to the loss of thousands of dollars in old-age and survivors insurance benefits to the family of a worker who died," he explained.

"Social security records, which are kept by name and number, not only are used to determine how much will be paid, but whether benefits can be paid at all. Consequently, part-time workers or those whose work is irregular may barely meet the minimum requirements even when all wages are properly recorded. Omission of one or two wage items could easily result in ineligibility."

Every worker can guard against this happening by making sure that his social security number has been copied correctly into his employer's record. Lost cards can be replaced easily by the Austin office on request. Application forms to get either new or duplicate social security cards can be obtained from any social security office, any post office or State employment office. The social security office will also provide a free postcard form to be used in getting a statement of wages credited to the worker's social security account.

Temple Civic Club To Sponsor Concert By Stamps Quartet

Senior Boys Close Baseball Season; See A&M Film

The senior boys league was closed Thursday night with the team coached by Jimmie Asher defeating Rev. John Solomon's team, 8 to 5. The game was cut to three innings in order that the players could witness the film of the T.C.U. and Aggie football game shown by the local Texas A & M Club at Caperton's lake.

Solomon's team opened the game, scoring four in the first inning. They added their remainder in the third. Asher's team just scored once in the first, but iced the game in the second when seven points were run up. The big rally was headed by Bobby Williams who slugged a double with three men on base.

Another heavy slugger was Leon Beale, who had a single and double.

Steve Polzer started on the mound for Asher's boys and was relieved in the second by Bob Brantley. Larry Jackson caught for the losers.

Bobby Williams was the winning pitcher with Luther Burnett behind the plate.

Jimmie Asher, Rev. Solomon, Rev. Clyde Holtmann and Howard Beale took turns coached the baseball teams during this summer. The senior league was a part of the Summer Recreation Program, that was headed by Coach Leo Jackson.

Mr. and Mrs. E. Ferguson of Route, 3 Rockdale, announce the birth of a son, Larry Joe, born at 9:45 Tuesday, July 27 at St. Edward Hospital. On arrival, the young man weighed 8 pounds and 6 ounces.

CONVENTION —

The Yarbrough group from Rockdale was lead by E. A. Camp and John Parmalee. In Cameron this group was directed by Emory B. Camp, H. B. Pressley, George Leath, A. N. Green, Hugh McKinney, chairman McClaren and others.

Chairman Perrin named the necessary committees. Each committee made their report. Delegations from the various precincts were seated. M. C. Perry of Rockdale was elected secretary. A complete report of the minutes and committees will be published as soon as obtained by this newspaper. Personnel of the committees were not complete and the Herald reporter was not able to get some of the actual accounts of the motions and other statements due to bickering and verbal disturbances on the part of some of the conventioners. Perrin said that Perry was due to have the minutes complete by some time Monday.

After the Shivers supporters had voted down the Yarbrough faction, the committees were appointed. The credentials committee report was approved.

The resolution committee chairman presented a resolution commending the administration of Shivers. In the voice vote the No's gave a good sounding disapproval to the resolution but not loud enough to match the Shivers crowd approval.

The delegation committee gave its report, later being approved by the convention. After taking care of other necessary procedures, motion was made to adjourn. The delegation named to state convention will be published as soon the secretary completes the convention minutes.

H-H — ming from 4:30 to 6:00. Serve yourself picnic supper was served from 6 to 7.

Moore showed entertainment films from 7:30 to 9:15.

Rex McClaren led the group in a devotional before bed time.

Roy Ford of Texas Power & Light Co., had charge of the Wednesday morning program on adequate wiring of farm buildings as a safety measure. Carroll Wayne Jungmann and Rex McClaren gave a demonstration the entire group practiced the motions.

Demonstrations were then given on electric brooder light and utility lights by Rex and Carroll Wayne.

The Camp adjourned after the group enjoyed a one hour swim period from 10 to 11 a.m.

HARBERS — years has magnified our need for getting the rainfall into the soil, reports J. D. Moore, County Agent. Clean cultivation and excessive grazing with livestock during recent years has rebbed our

soil of the vegetation nature intended to be returned to the soil.

Harbers has a unique story. More than 3,000 people have gone to the trouble to hunt up and visit his farm this year. He received a \$5,000 State prize for contributing most to agriculture in 1953.
